Description of brass curtain rods (Zegar)*

CLASSIC

Rods differ by classic antique appearance, are made of high quality brass. Wide range of elements of this group covers also many different brackets and finials of rods (for example with connection with glass).

Next colors available:

**poler (gold), antico (antique gold),
satyna (matte gold).**

TECHNO Ø20, Ø16

Curtain rods of modern, simple form, made of high quality materials – brass and stainless steel. Rings equipped with teflon for more easier and noiseless sliding. Rails with sliders can be used instead of tube.

Next colors available:

**antico (antique gold), satyna (matte gold), inox
(stainless steel).**

TECHNO Ø12

Curtain rods of modern, simple form, made of high quality materials – brass and stainless steel. Rings equipped with teflon gaskets for more easier and noiseless sliding. Rails with sliders can be used instead of tube.

Next colors available:

**antico (antique gold), satyna (matte gold), inox
(stainless steel).**

FORGED CURTAIN RODS

Forged elements, twisted rod.

Next colors available:

black matte, antique green.
